Electric Platform Truck PE30

Loading Capacity 3000 kg

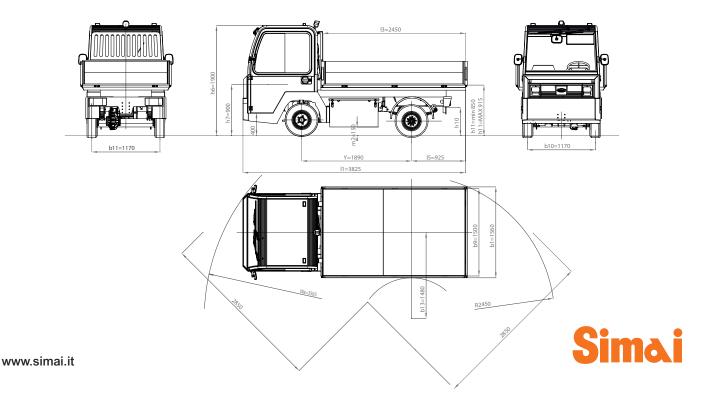

4-wheel platform truck, man on board, with rear-wheel drive. Extremely easy to drive, ideal for all duties - both indoors and outdoors, even on long distances. The platform of the PE30 truck can be completed with other equipment.

- Central chassis.
- Phenol-resin bonded plywood platform size 2,450x1500 mm

 other sizes and materials available upon request. Aluminium tipping side walls h 400 mm available upon request.
- Suspensions: rubberised steel coil springs, stabiliser bar and shock absorbers in the front, semi-elliptical leaf springs in the rear
- Drum service brake acting on 4 wheels with twofold braking system. Front disk brakes and rear oil-bath multiple-disk brakes. Mechanical lever-type parking brake - negative hydraulic brake available upon request. Preset electrical braking, operating automatically when accelerator pedal is released, with first stroke of brake pedal and on reversing direction.
- · Standard hydraulic steering.
- 2 operators on board. Driving position in the front ensures excellent rear and front visibility. Suspension seats. Easy access to driving position thanks to low step-on platform.

- "Man on board" device with seat occupancy sensor. Available
 with weather protection roof with front and rear windscreen
 and electric wipers. PVC canvas doors or cab with hinged side
 doors available.
- Lighting system: 2 front lights (position/dipped-beam/ main-beam), 2 front turn indicators, 2 rear turn indicators, 2 rear lights (position/brake lights), 2 reversing lights. Flashing light and blue lights available upon request.
- Digital dashboard with battery charge indicator, fault detection, speedometer and hour meter. 24 V DC/DC converter for auxiliary services.
- · Induction motor.
- Electronic speed control of AC motor with energy recovery during deceleration and braking. Available also with towing hitch upon request.
- Battery 80 V available capacity 400Ah and 480Ah. Fast replacement from the side. Standard paint finish: chassis dark grey RAL 7021/body ligt grey RAL 7035. Other colours available upon request.

All parts are easy to access for fast and effective maintenance. Lower costs due to AC technology and modular design.

As per VDI guidelines 2198, this datasheet applies to standard electric tractor / platform truck only. Dimensions are not binding and can be changed in any moment. The performances must be intended for brand new machines, after having completed the running-in tested in San Donato Milanese Factory in normal climatic conditions. Performances and weight are to be intended with standard motors and battery (reported in bold) and with pneumatic tires. Some data can vary according to different equipments.
